Introduction to the information posted by the Quidhampton Covid-19 Support Group

The Support Group was formed in late March 2020.

The Terms of Reference for the Support Group are published here, following finalisation on 27th May 2020.

The group was initially intended as a committee of the Parish Council, but that proved to be legally insurmountable and administratively impractical. Parish Councillors are volunteers and also members of the steering group, including the PC chair.

The agendas and minutes of the weekly meeting of the steering group are posted for information and to provide transparency of the work of the volunteer group.

Reference documents are posted which either provide guidance for the volunteers, and/or have been made available to the Quidhampton public as required, via village email and the monthly village newsletter and flyers.

Procedures and requirements are held under review and new documents and updated documents will be posted when improvements or changes are made.

Please send comments for improvement, or questions, to the steering group chair Howard Rowley (stables.denise@btinternet.com), with a copy for information to the group secretary Hannah Newman (hmnewnham@gmail.com).
